

The business of communication

Learn the essentials of Public Speaking from the film industry. **Voice** is our focus. With the world's best coaches, we can build a personalised voice and persona tool-kit that will let you connect with your audience. Or we could coach you towards a critical meeting or media interview.

Our coaches regularly work with many leading actors:

Scarlett Johansson
Hugh Jackman
Viggo Mortensen
Brad Pitt
Colin Firth
Harrison Ford
Rosamund Pike
Robert Downey Jr.

We will help you leverage the performance principles that underpin some of the best actors in stage & film, and allow you to release the power of your own voice and character. You can win over your workforce, your Board and your peers with immense conviction and charisma.

We offer a highly bespoke corporate service. It's also a discreet one, as some people cannot accept internal company advice or presentation critique. Let us dramatically empower your speeches and messaging.

For initial assessment, contact Dominic Turnbull:
dominic@erdenproject.com

The challenge: Public Speaking anxiety, speech impediment, camera shyness, revealing body-language, zero corporate gloss, zero charisma, reliance on notes

Action: voice enhancement, accent acquisition, script memorisation, podium power, posture control, breath-work and timing

Background: speech prepping, camera confidence, vocal exercise, script editing, stage grace, storytelling for the market, film-clip consulting

Through the Erden Project we have found a valuable synergy between our corporate creative needs and a skill-set which is the cornerstone of the movie industry. We now have access to some of the best voice trainers and help with visioning how corporates can tell their stories in meaningful ways.
